

Image Captions & Credits

The images of Warlander horses represented on the Warlander Studbook Society website are from our members who we thank for helping us represent the quality and type that is aspired to in Warlander breeding.

We would like to sincerely thank Morgan Moore (USA) for sharing the incredible shots of her F2 (second generation) Warlander stallion Inqueito RAM. All of the images of Inqueito RAM throughout the website have been taken by April Visel. Inqueito was bred by Ramiro Meija (USA) and is the son of the Warlander stallion Hummer. Inqueito RAM features throughout our website because he represents the 'Standard of Excellence' in Warlander Breeding.

The Studbook hopes that present and future breeders will aspire to this quality, particularly in F2 and onwards. There is no better representation of what a Warlander is supposed to look like... and be... than Inqueito RAM.
